ECO-FRIENDLY

Polystyrene skirting boards are eco-friendly because they are made from fully recyclable material. By choosing them, you contribute to environmental protection.

WATERPROOF

Polystyrene skirting boards are waterproof, making them an ideal choice for moisture-prone areas. They do not warp or swell when exposed to water.

LIGHTNESS OF THE MATERIAL

Polystyrene skirting boards are extremely lightweight, making them easy to transport and install. Despite their lightness, they are very durable.

EASY TO CLEAN

Thanks to their smooth surface, polystyrene skirting boards are very easy to clean.
A simple wipe with a damp cloth is enough to keep them looking fresh.

EASY TO INSTAL

Installing polystyrene skirting boards is relatively easy. Even those with basic experience can handle it. The installation is simple and doesn't require much time.

POSSIBILITIES PAINTABLE

Polystyrene skirting boards can be easily painted, allowing you to perfectly match the color to your interior. This gives you full control over the final look of your room.
