WATERPROOF

The modern material of the Lamelio wall panels is waterproof, so you can successfully use them not only in the living room or bedroom, but also in the bathroom, spa or other rooms exposed to moisture.

T I M E L E S S SHAPE

The Vasco collection is most often chosen by our customers due to the exceptional thickness of individual panel strips. The Vasco series is a form of simplicity that greatly facilitates interior design.

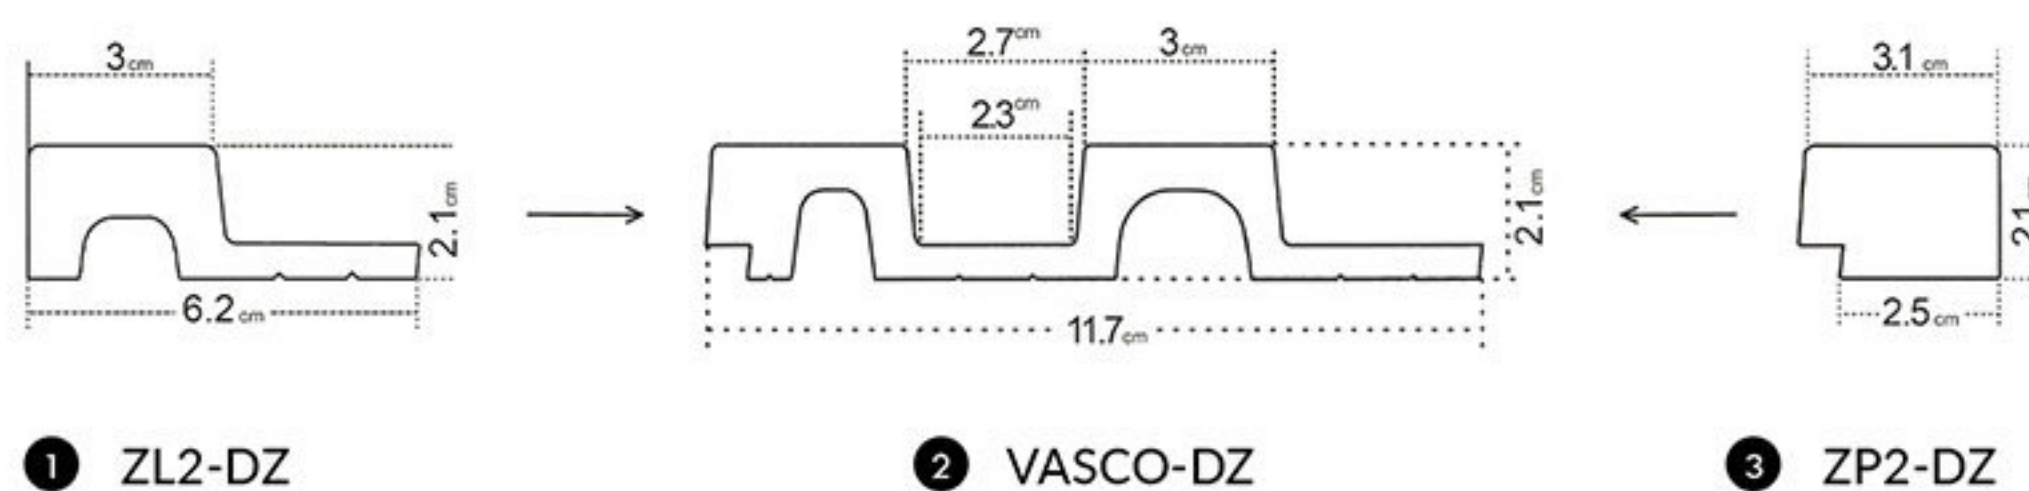

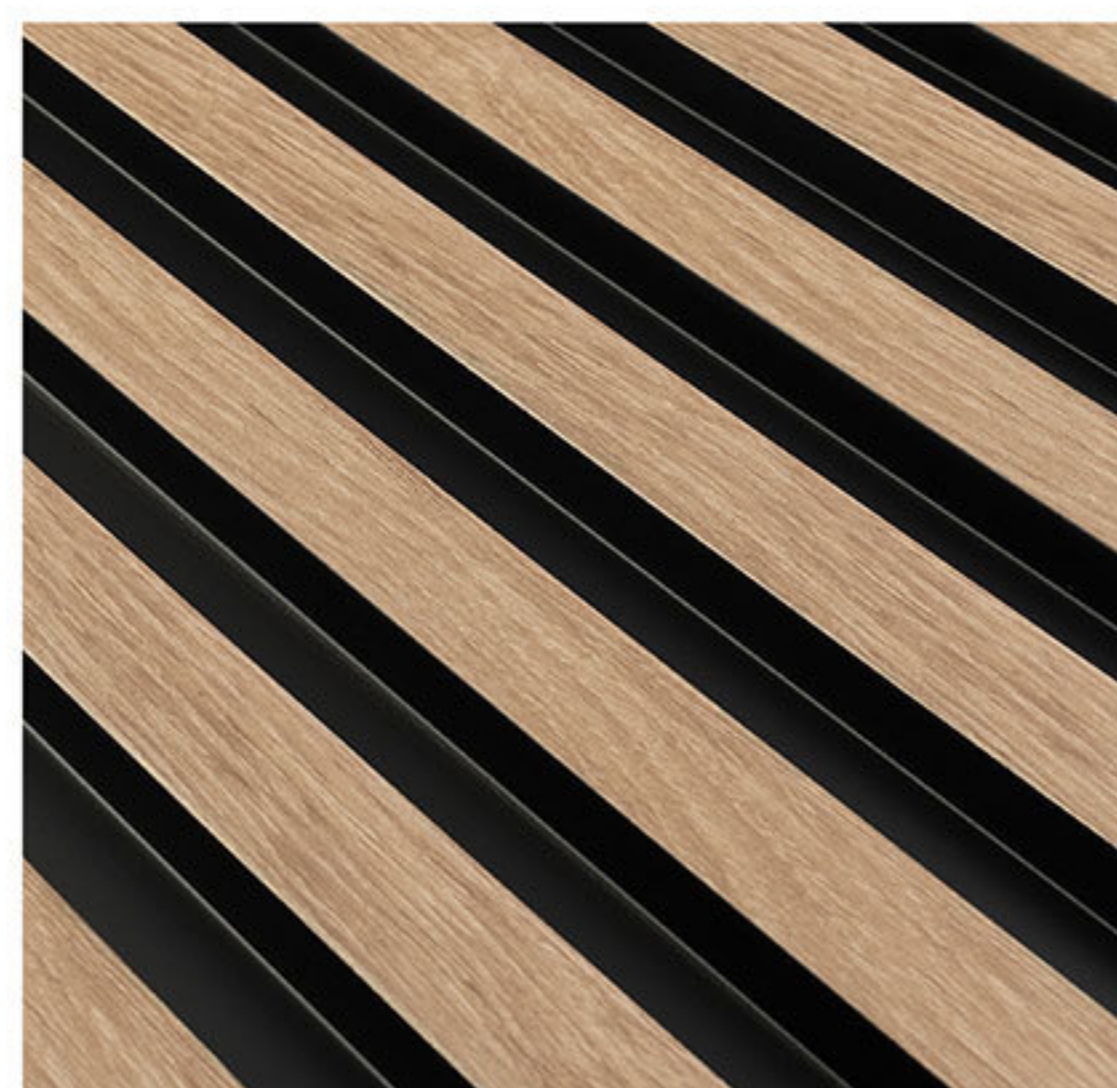

These panels fit within most arrangements. The panels are available in three wood shades. Due to the clear three-dimensional nature, they are very often mounted not only on the walls, but also on the ceiling, which perfectly delineates the zones in the room.

SOUND PROOFING PROPERTIES

Wall panels except their various shapes and a wide range of colors, have the extraordinary ability to silence the room by absorbing sound waves and eliminating reverberation

T I M E L E S S SHAPE

In the Onda Collection you will find panels that have been created with subtle interior design in mind. Their unique form resembling delicate waves which creates an interesting visual effect and emphasizes the unique character of the room. Warm and cool tones of the panels from Onda Collection will allow us to arrange them easily in any interior, regardless of the style in which it was decorated.

Their minimalist form and neutral colors will make them a timeless wall decoration in your interior.

EASY TO CLEAN

Our wall panels will change your interior in a quick and simple way. Caring and cleaning them is also quick and simple, thanks to the material from which they were made.

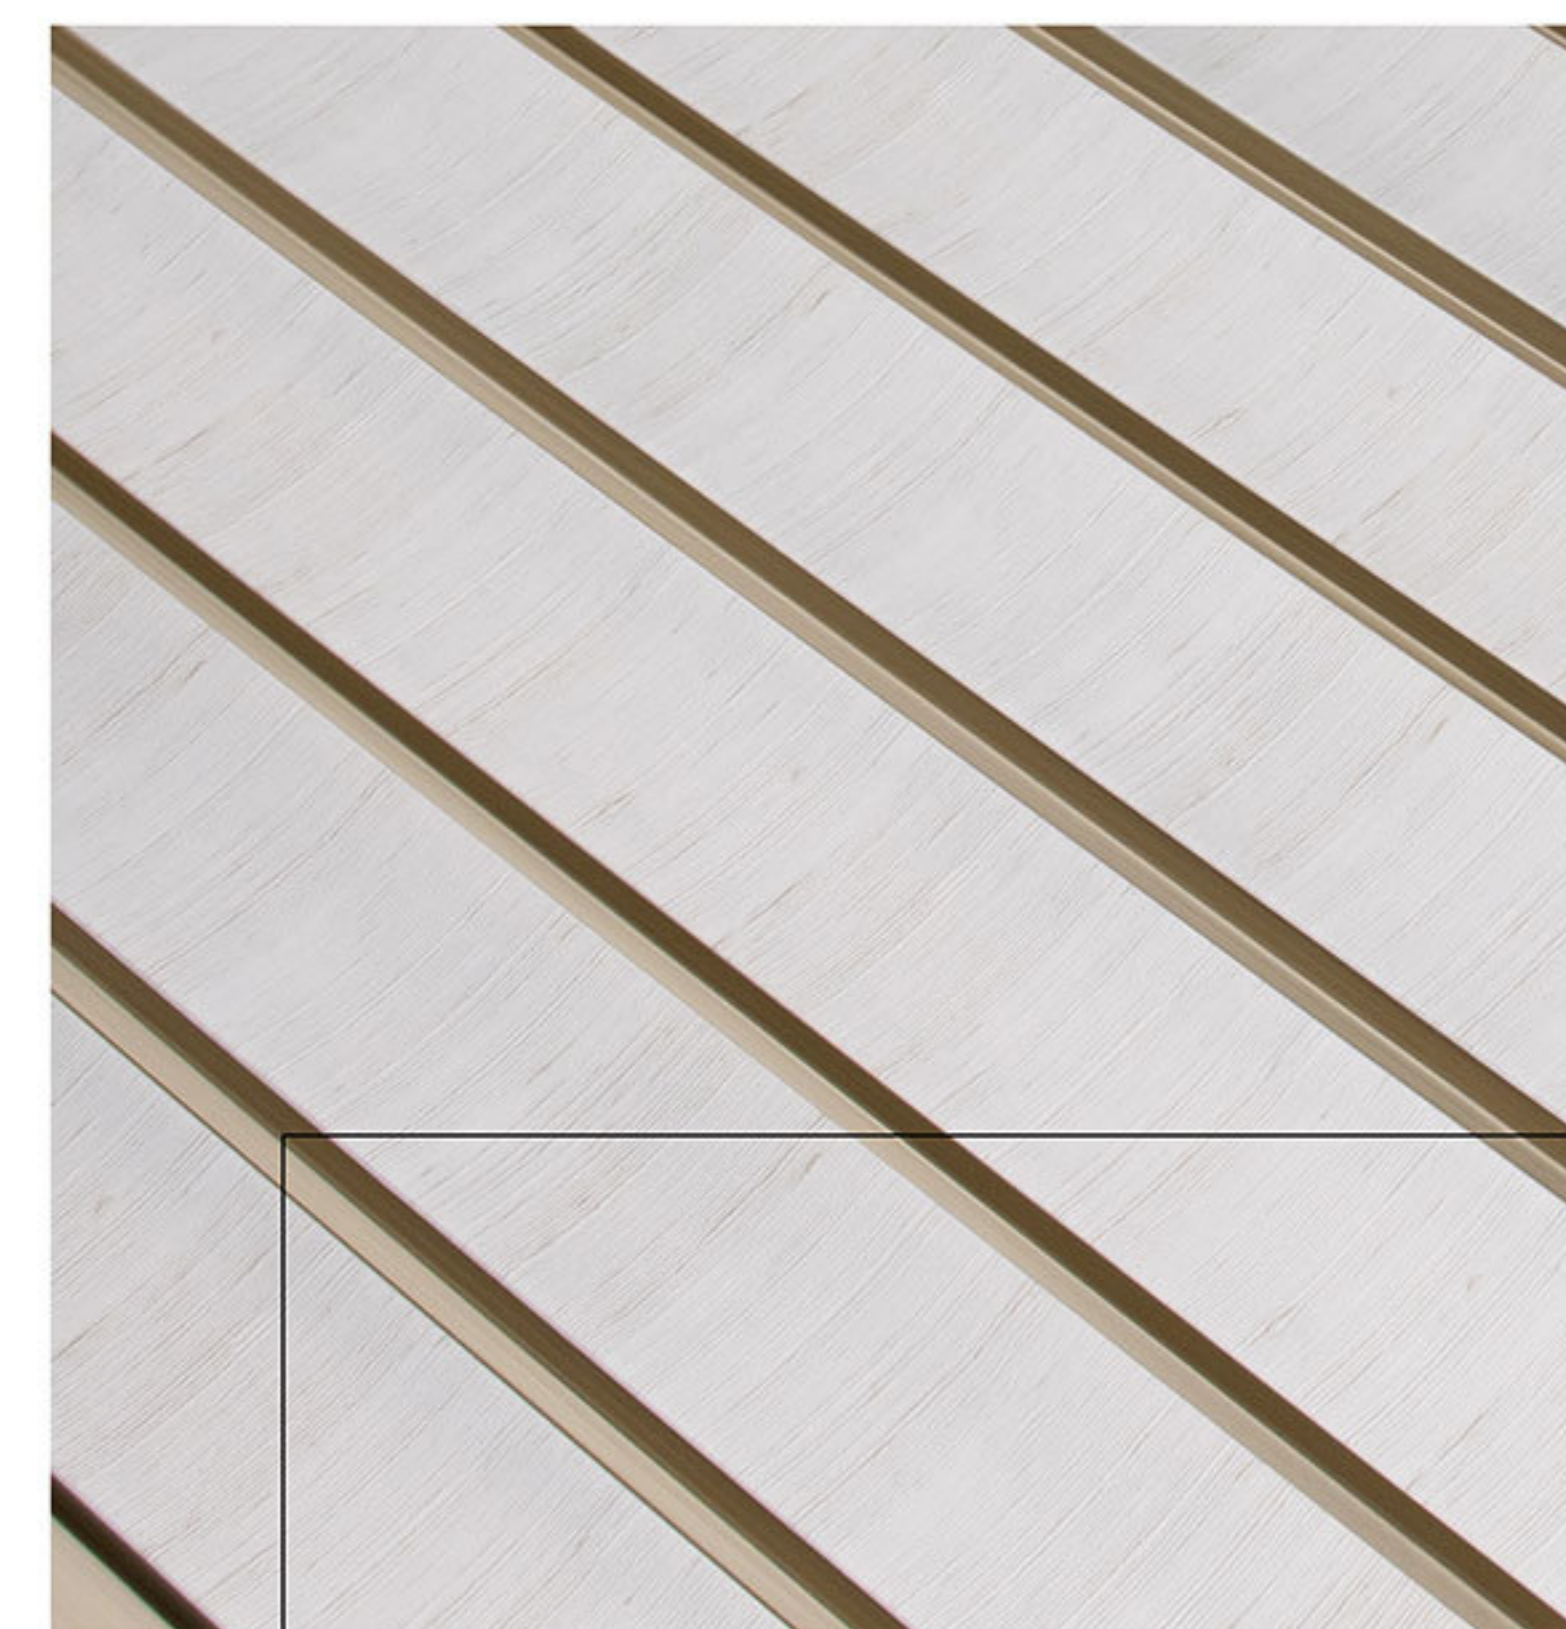

UNIQUE DESIGN AND ELEGANCE

The Amber Collection is a proposal for people who appreciate unique design. Panels from this collection are characterized by original form that will introduce a modern accent to your interior. Wide slats with a delicate structure are divided by a thin recess, which adds lightness and elegance. The Amber collection consists of 4 colors: anthracite, beige, grey and white. Thanks to this, it can be adapted to various interior styles. The colors of the collection will suit both modern and classic interiors.

LIGHTNESS OF THE MATERIAL

The lightness of the wall panels is their great advantage, which allows us to install them easily and quickly. Our wall panels can be mounted on suspended ceiling or furniture fronts without worrying about their weight.

INFINITY NUMBER OF POSSIBILITIES

The Infinity Collection you can find panels with an infinite number of possibilities. They will be unusual proposition for people who value individualism and creativity in interior design. The greatest advantage of the panels from the Infinity Collection is the ability to give them an individual character. Panels of various shapes and slat spacing are available in white. You can leave the panels in this color or paint them in another color of your choice. This possibility means that everyone can create their own personalized wall decoration that will perfectly match to the character and color of the entire interior.

PAINT YOUR PANELS YOURSELF

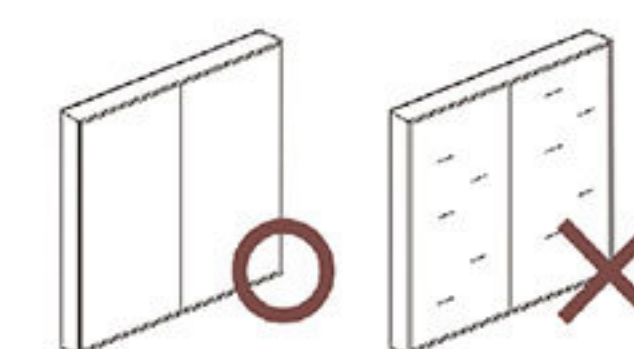

The best effect of painting wall panels from the Infinity collection will be obtained by spray painting using acrylic paints. By spray painting you will get a perfectly smooth painting surface. You can also paint the wall panels yourself with wall paint using a paint brush. Remember that when painting wall panels with a brush, the bristle structure will be visible on the surface.

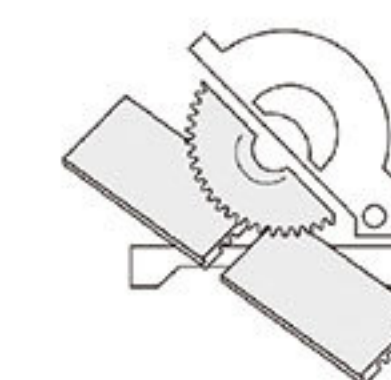

Glue
FOR PANELS

ASSEMBLY OF LAMELLAS

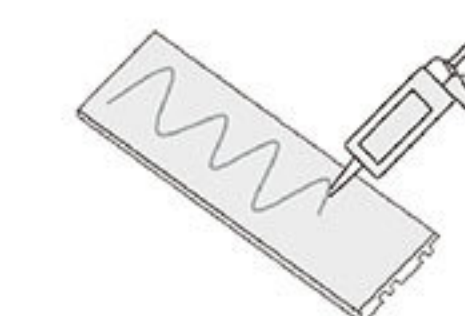

- 1 Prepare the surface on which the panels will be mounted. Installation on plastered walls, gypsum boards or wood-based materials is possible. If the wall is covered with wallpaper, we recommend that you disassemble it.

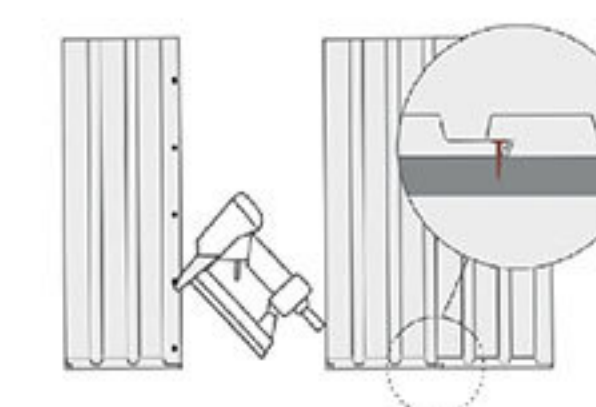

- 2 Use a circular saw or jigsaw to cut the panels to the correct length or width.

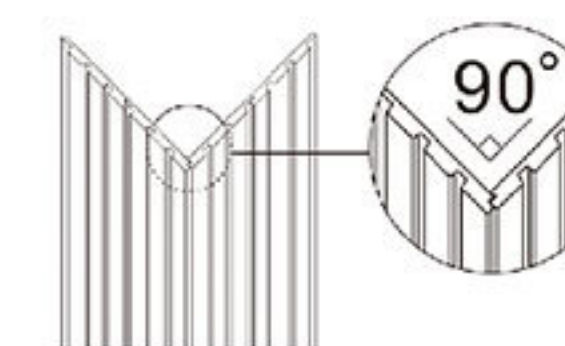

- 3 Apply mounting adhesive to the back of the panels.

- 4 The panels can be installed vertically or horizontally. In addition to the mounting glue, you can additionally use a stapler to attach the panels to the wall. Apply the staples to the edge of the panels' tongue, making them invisible.

- 5 When joining panels on the corner of the wall, groove the panels together.

- 6 You can use end strips to complete the finish look.
