CLIPMONTAGE

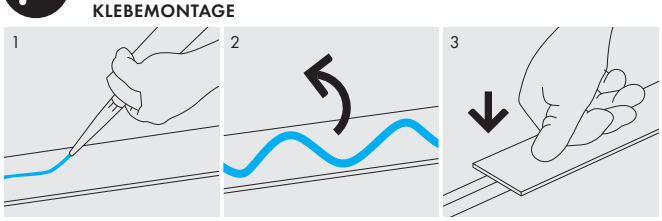
Prisuk klipsą prie sienos medvaržčiu./ Install the clip on the wall with a screw./ Den Clip mit einer Schraube an der Wand befestigen.

Uždėk grindjuostę ant klipso ir paspausk./ Place the skirting board in the clip and press down./ Die Leiste auf den Clip setzen und andrücken.

MONTAVIMAS SU KLIJAIS
ADHESIVE INSTALLATION
KLEBEMONTAGE



Užtepk klijus kitoje pusėje grindjuostės./ Apply the assembly adhesive to the back of the trim./ Den Montagekleber auf der Rückseite der Leiste auftragen.

Prispausk grindjuostę prie sienos./ Turn the trim over and apply it to the substrate./ Die Leiste umdrehen und auf den Untergrund legen.

Stipriai spausk./ Press down firmly./ Fest andrücken.

PRODUKTŲ NAUDOJIMO SĄLYGOS
CONDITIONS OF USE OF THE PRODUCTS
VERWENDUNGSBEDINGUNGEN FÜR DIE PRODUKTE

Siekdami užtikrinti jūsų sveikatą, saugumą ir „Cezar" gaminių ilgaamžiškumą, parengėme bendruosius patarimus dėl mūsų gaminių montavimo ir naudojimo. Visų pirma, nepamirškite, kad:

For the sake of your health, safety and the long life of products by Cezar, we have prepared general advice on the installation and use of our products. In particular, remember the following:

Im Interesse Ihrer Gesundheit, Ihrer Sicherheit und der Langlebigkeit der Produkte von Cezar haben wir allgemeine Hinweise für die Montage und den Gebrauch unserer Produkte zusammengestellt. Dabei ist insbesondere Folgendes zu beachten:

Apdailos elementus (PVC juostas, aliuminio ir žalvario profilius, nerūdijantį plieną) reikia apsaugoti nuo užteršimo šlapiomis medžiagomis (betonu, skiediniu, klijais, plytelių glaistu ir kt.), naudojamomis statybų pramonėje. Pavyzdžiui, jei jie susitepa, nedelsdami nuplaukite juos švariu vandeniu.

•Pjaustant metalinius profilius,nenaudokite įrankių, kurie gali perkaitinti medžiagą.

•Metaliniams elementams valyti nenaudokite priemonių, kurių sudėtyje yra chloro ar kitų ėsdinančių medžiagų.

•Metaliniams profiliams montuoti naudokite tik chemiškai neutralius surinkimo klijus ir silikonus.

•Plastikiniams elementams valyti nenaudokite jokių valymo priemonių, kurių sudėtyje yra tirpiklių.

•Elementus su etikečių, kainų etikečių ar lipnios juostos likučiais reikia nuvalyti denatūruotu spiritu suvilgyta šluoste.

•Prieš klojant grindų plokščių paklotus, grindis reikia nuvalyti ir apsaugoti nuo drėgmės PE folija.
•Medinių grindų,
medienos pagrindo medžiagų, sienų plokščių ir palangių priežiūrai
naudokite aplinkai nekenksmingas valymo priemones, kurios nereaguoja su jų paviršių dengiančiu laminatu.
• Paviršiams valyti naudokite šluostę,
kuri turi didelį drėgmės sugerties koeficientą.

- finishing elements (PVC strips, aluminium and brass stainless steel profiles) must be protected from contamination with wet materials, such as concrete, mortar, adhesive, tile grout, etc. used in the construction industry, for example in the event of contamination, the contamination must be washed off immediately with clean water,
- do not use tools that could overheat the material when cutting metal profiles,
- do not use agents containing chlorine or other corrosive substances to clean metal parts,
- use only chemically neutral mounting adhesives and silicones for installation of metal profiles,
- do not use any cleaning materials containing solvents to clean plastic parts,
- any parts with residues of labels, price tags or tapes should be washed off with a cloth soaked in denatured alcohol,
- the floor for laying laminate flooring underlay should be cleaned and protected against moisture with a PE film before laying the underlay,
- for maintenance of wooden and wood-based floors, wall panels and window sills, use environmentally friendly cleaning agents and do not react with the laminate flooring,
- use a fabric with a high moisture-absorbing capacity to clean the surface.

- Veredelungelemente (PVC-Leisten, Aluminium-und Messingprofile aus rostfreiem Stahl) müssen vor Verunreinigung geschützt werden durch: Beton, Mörtel, Kleber, Fugenmörtel die in der Bauindustrie verwendet werden. Im Falle einer Verunreinigung muss diese sofort mit sauberem Wasser abgewaschen werden.
- Beim Schneiden von Metallprofilen keine Werkzeuge verwenden, die das Material überhitzen können,
- Chlorhaltige Mittel oder andere ätzende Stoffe sollten nicht zur Reinigung von Metallteilen verwendet werden.
- Für die Montage von Metallprofilen nur chemisch neutrale Montagekleber und Silikone verwenden.
- Zur Reinigung von Kunststoffteilen dürfen keine lösungsmittelhaltigen Reinigungsmittel verwendet werden.
- Eventuelle Rückstände von Etiketten, Preisschildern oder Klebebändern sollten mit einem in denaturiertem Alkohol getränkten Tuch abgewaschen werden.
- Der Boden sollte gereinigt und mit PE-Folie vor Feuchtigkeit geschützt werden, bevor die Unterlage für die Bodenplatten verlegt wird.
- Für die Pflege von Holz- und Holzwerkstoffböden, Wandplatten und Fensterbänken sind umweltfreundliche Reinigungsmittel zu verwenden, die nicht mit dem Laminat reagieren, das die Oberfläche bedeckt.
- Zur Reinigung der Oberfläche muss ein Gewebe mit hoher Feuchtigkeitsaufnahmefähigkeit verwendet werden.

Atminkite, kad visus statybos darbus turi atlikti kvalifikuoti darbuotojai,kurie laikosi statybos reglamentų. Gamintojas neatsako už gaminius, kurie buvo naudojami ne pagal paskirtį arba buvo sugadinti netinkamo montavimo metu.

Remember to make sure that any construction work is carried out by qualified workers who respect building regulations. The manufacturer shall not be held liable for the products which have been used other than for their intended purpose or damaged during improper installation.

Achten Sie darauf, dass alle Bauarbeiten von qualifizierten Arbeitskräften ausgeführt werden, die die Bauvorschriften einhalten. Der Hersteller haftet nicht für Produkte, die nicht bestimmungsgemäß verwendet wurden oder bei unsachgemäßer Installation beschädigt wurden.

Dirbdami laikykitės bendrųjų darbo saugos ir sveikatos taisyklių.Taip išvengsite nemalonių traumų ir užtikrinsite tinkamą saugos lygį bei patikimą montavimą!

Observe the general EHS rules when carrying out work. This could protect you from injuries and ensure adequate safety and secure installation!

Bei der Durchführung der Arbeiten müssen die allgemeinen Gesundheits- und Sicherheitsvorschriften eingehalten werden. So schützen Sie sich vor unangenehmen Verletzungen und sorgen für ausreichende Sicherheit und einen sicheren Einbau!

Skirtingų gamybos partijų gaminių spalva gali šiek tiek skirtis.

The colour of the products from different production batches may vary slightly in shade.

Leichte Farbabweichungen zwischen den Produktionschargen sind möglich.

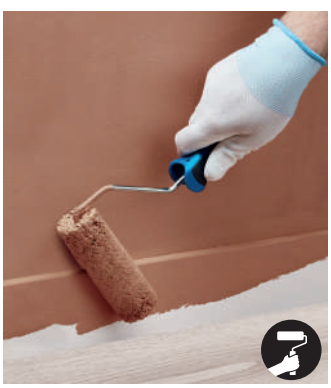
LIGHTBLOCKER®



Gaminį galima dažyti kartu su siena arba lubomis bet kokia spalva, naudojant akrilinius arba lateksinius dažus.
The product can be painted together with the wall or ceiling in any colour using acrylic or latex paints.
Das Produkt kann zusammen mit der Wand oder der Decke in jeder beliebigen Farbe mit Acryl- oder Latexfarben gestrichen werden.

Paruošta naudoti – nereikia dažyti.
Ready to use — no painting required.
Gebrauchsfertig — kein Anstrich erforderlich.

Produktas su LIGHTBLOCKER® technologija – šviesą blokuojančiu sluoksniu, kuris neleidžia šviesai praeiti pro gaminį.
Product with **LIGHTBLOCKER®** technology — a light-blocking layer that prevents light from passing through the product.
Produkt mit **LIGHTBLOCKER®**-Technologie – eine lichtsperrende Schicht, die das Durchscheinen von Licht durch das Produkt verhindert.

Produktas be LIGHTBLOCKER® technologijos – šviesa gali prasiskverbti pro gaminį.
Product without **LIGHTBLOCKER®** technology — light can pass through the moulding.
Produkt ohne **LIGHTBLOCKER®**-Technologie – Licht kann durch die Leiste hindurchscheinen.
